

# Spruce Trees!

~delivered, staked & planted~

**\$135/ft - 1, \$130/ft - 2, \$125/ft - 3, \$120/ft - 4, \$115 - 5, \$110/ft - 6, \$105/ft - 7**

To calculate the price of mixed tree size orders, simply add together the total number of tree-feet and multiply by the according price per tree per foot.

<u>6'</u> \$810 - 1	<u>8'</u> \$1080 - 1
<u>10'</u> \$1350 - 1	<u>12'</u> \$1620 - 1

Call us - 970.368.0205 - to review your landscape plan, if we're planting more than 7 spruce trees this season, or if you're looking for even bigger spruce trees!

## **Types of Mulch: Trees Under 10' require about 1CY of mulch.**

Local, Fresh Woodchips:	\$95/
Local, Screened Wood Pulp Compost:	\$145/
Shredded Washington Brown Cedar:	\$165/

We have various mulching options to suit your visual preferences and landscape's needs! Whichever you choose, rest assured that mulch is crucially important for **keeping your new trees' roots moist and well fed** over the growing season ahead, while **keeping your water bill as low** as possible.

## **What's included in the planting price?**

We plant all "delivered, staked & planted" trees with a backfill mixture of native soil and our Summit County Black Gold™ vermicompost topsoil blend. **Along with mulch and drip irrigation**, this careful planting method gives your new trees the strongest possible start through their first season of growing into their new home.

**Irrigation is extremely important for the guaranteed survival of your newly planted trees.** We can install new systems, add new zones and can usually tap into existing zones, if there's one running nearby!

This general price quote is subject to change if there exists limited access or extremely steep terrain that our equipment is unable to pass or traverse.
